

PAT present during 28th edition of In-Cosmetics Global in Amsterdam

Plant Advanced Technologies (PAT), pioneer in identifying and producing rare biomolecules, will showcase its ingredients during the tradeshow In-Cosmetics from 17 to 19 April in Amsterdam (Netherlands), on booth K49.

In line with its **new trading strategy**, non-exclusive **collection of products** will be presented during this show of worldwide scope, gathering key players of cosmetics like laboratories, leading brands, manufacturers and distributors. Innovative **technologies of production** will be presented as well as related opportunities of customized collaborative projects.

All about PAT on plantadvanced.com

About PAT:

After almost 20 years of experience, PAT is the pioneer in root optimization and exploration thanks to PAT's patented technology PAT plant milking®. The plant biotechnology company specializes in identifying, optimizing and producing rare active compounds of plant origin designed for cosmetics, pharmaceuticals and agrochemistry. PAT's exclusive know-how is worldwide patented (PAT plant milking® et Target Binding®).

PAT is listed on Euronext Growth™ of Euronext Paris (ISIN code: FR0010785790 – Mnemonic code: ALPAT).
